
GENERAL MANAGER MESSAGE

Dear Members,

I hope you and your families enjoyed a wonderful Mid-Autumn Festival, filled with good memories and time together. As we step into October and embrace the refreshing spring season, we are fortunate that no super typhoons have affected Hong Kong this year. However, the recent exceptionally high tides remain a concern. I trust that the enclosed hydrographic survey report will provide useful reference for your berthing arrangements.

On 9 September, Hong Kong Marina was honoured to welcome a government-enterprise delegation led by Mr. Chen Enwen, Director of the Shunde District Transport Bureau, and Ms. Lao Lujun, Party Secretary of Shunde Wenlv Group. Their visit focused on gaining deeper understanding of the yacht industry and exploring cross-regional cooperation opportunities.

Industry Exchange & Visit

The delegation visited Hong Kong Yacht Club and held substantive discussions with me, Billy Ng, General Manager of Hong Kong Marina Ltd. They gained first-hand insights into Hong Kong's yacht berthing infrastructure, berth management practices, operational models, and service standards.

MARINA & OPERATIONS

To ensure the continued safety and reliability of our berthing facilities, we have arranged divers to conduct underwater inspections of the marina structures. All findings remain in good condition.

In addition, our marina team is progressing according to schedule on the wooden fender replacement project, ensuring improved durability and comfort for members' berthing experience.
